FREE-MOTION™ alternative WIRELESS NUNCHUCK™ ATOMIC

FREE-MOTION™ alternative WIRELESS NUNCHUCK™ ATOMIC

Wireless RF Multi-channel Nunchuck replacement controller compatible with Wii Remote®.

Free your Nintendo Wii® gaming experience from the wired connection between the Wii Remote® and Nunchuck®.

Full accelerometer support for motion based gameplay.

With no need of extra battery, the bundle includes a wireless controller, a small receiver that connects to the Wii Remote® expansion port and a USB cable to charge the controller.

The Atomic FreeMote offers TURBO and AUTO function to optimize and simplify your gaming experience.

If more controllers are used at the same time, the F_LINK handshake function prevents them from interfering and allows to associate each FreeMote to the desired receiver.
