AIR WHEEL wireless ATOMIC

AIR WHEEL wireless ATOMIC

Sky is NOT the limit!

Drive in the air with this revolutionary steering wheel taking full advantage of the new Motion Sensing technology.

Fly over borderlines and frontiers thanks to the largest compatibility ever: PS3™ / PS2™ / PS1™ / XBOX™ / PC WINDOWS™ (ME / 2000 / Xp / Vista), DirectX and USB 2.0.

This steering wheel offers all the state-of-the-art features of Atomic wheels: Traction Control and 3 different levels of steering sensitivity up to 180°.

As all the latest Atomic wheels, the AIR WHEEL wireless ATOMIC features the innovative TCS™ traction control system, allowing to use gas and brake simultaneously. The wheel is able to evaluate and adjust their intensity to allow better grip on track.

Programmable gas and brake buttons, along with 12 fire buttons and direction pad.

Interactive vibration on all platforms, including PS3. Dual Shock™ and Dual Shock 2™ compatible.

Two operating modes (where allowed): Analog and Digital.

Powered by 3 AAA batteries (included).

Robust and ultra-light design.

Available in colours: black.
