FreeMOTION™ Wireless White Wii ATOMIC PLATINUM®

FreeMOTION™ Wireless White Wii ATOMIC PLATINUM®

Wireless RF Multi-channel controller compatible with Wii Remote®. Free your Nintendo Wii® gaming experience from the wired connection between the Wii Remote® and Nunchuk®.

Full accelerometer support for motion based gameplay.

With no need of extra battery, the bundle includes a wireless controller, a small receiver that connects to the Wii Remote® expansion port and a USB cable to charge the controller.

The Atomic FreeMotion features, on top of "C" and "Z" buttons, TURBO and AUTO functions to optimize and simplify your gaming experience.

The power plug on the controller is a mini USB plug, like in many digital handheld devices, to give even more charging flexibility.

AUTOSLEEP function for power saving: the controller automatically enters standby mode after 5 minutes idle, and can be activated again by simply pressing "C" or "Z".

If more controllers are used at the same time, the F_LINK handshake function prevents them from interfering and allows to associate each FreeMote to the desired receiver.

Technical facts:

Controller: meas. 103 mm * 45mm * 33mm; weight 57.5g; electricity: 3V DC at 28mA

Receiver: meas. 40mm * 31mm * 35mm; weight 19g; electricity: 3.3V at 15,8mA

Max. operating range: 7-8 m.

Embedded Lithium Battery: 3.7V at 250mA, intensity ≤ 160mA, lifetime about 14 hours, charging time 2 hours.

Frequency Modulation: 2.4GHz 80 channels MultiChannel RF.

Available in colour: white and "kuro" black.

PRODUCT NAME: **FreeMOTION™ Wireless White Wii ATOMIC PLATINUM®**

ITEM CODE: **WIIA.84**

PRODUCT BARCODE: **8022805117433**

COLOUR BARCODE: **8022805117440**

COUNTRY OF ORIGIN: **CHINA**

PACKAGING: **CARTON BOX / PVC**

REMOTE CONTROL is not included
